MY "KIMBALL".  
When times are hard and things go wrong,  
And sorrow seems unending,  
My heart then sings a mournful song  
While over my key-board begin.  
My "Kimball".

The sweet response in mine key  
Repulses those transient sorrows,  
And makes it seem that there may be  
A host of bright tomorrow.  
My "Kimball".

When seeming friends betray their trust,  
All things look deceiving.  
Then thou dost melt the cynic crust,  
And leave me still believing.  
My "Kimball".

When all the mists have rolled away,  
And life is joy is bounding,  
They strings peal for a merry lay,  
With tunefulness resounding.  
My "Kimball".

(Written for "The Times" by a young lady  
who has one.)

# Voluntary Testimonials GIVEN TO DR. WOH, The Eminent Chinese Physician.

No Opium or Poisonous Drugs are used in my Practice.

Dr. Woh's life work has been from early youth one of persistent and untiring observation, study and investigation, as fully as lay in his power to perfect himself in all branches of the art of healing human sickness and disease. Born in China, of influential parents, of a family whose ancestors have been for generations deservedly renowned as leading physicians, Dr. Woh naturally followed in the footsteps of his fathers. In China he has practiced his profession for several years, being at one time a physician in the Imperial Hospital, and in America for a long time. His great number of patients, his wonderful and many cures, and the great list of letters from grateful and thankful patrons now prove him to be a remarkable and successful healer of sickness and all diseases.

I have doctorred with the best physicians of San Francisco for my heart disease, but received no benefit. Thirty days ago I was advised by Dr. Woh to go to him for treatment; before that I was twice completely prostrated in the public streets, but today I am a well man and I thank you alone for my recovery.

J. G. SIMPSON,  
83 Gladys ave., Los Angeles, Cal.

In Cleveland, Ohio, many months ago I caught a severe cold which settled on my lungs, and I had a fever. There was then no hope of my recovery, but that a change to California might prolong my life. February last I came to see Dr. Woh, who directed me to the best physicians and no relief; finally Dr. Woh was recommended to me by a friend. I took his medicines and they worked perfectly. Today I am perfectly well. I recommend Dr. Woh to my friends as an able doctor.

P. J. KIRK,  
Justice of the Peace,  
Burbank, Cal.

October 13, 1891.

For a long time I have been suffering with bladder and kidney troubles. No doctoring or medicines seemed to do me good. I consulted the best physicians and surgeons in the city, but received no benefit. Dr. Woh, the Chinese physician, of Los Angeles City, prescribed for me, and I began his treatment and can now certify that he has done me great good. I recommend Dr. Woh to my friends as an able doctor.

F. J. KIRK,  
Justice of the Peace,  
Burbank, Cal.

I have tried many doctors for heart disease but have derived no benefit until Dr. Woh, the Chinese physician, of Los Angeles City, prescribed for me. I began his treatment and can now certify that he has done me great good. I recommend Dr. Woh to my friends as an able doctor.

MISS GRACE M. FIELD,  
San Bernardino, Cal.

### CONSUMPTION

IT CAN BE CURED: This is being verified every week by those who are using the AERÆN SYSTEM of practice, consisting of MEDICATED INHALATIONS and COMPOUND OXYGEN as prescribed by

M. HILTON WILLIAMS, M. D.

137 South Broadway, Los Angeles, Cal.

This system of practice is effectual in the cure of CATARRH, Throat diseases, Bronchitis and Asthma and Consumption.

The symptoms of consumption consist in a weariness at times or a disposition to remain passive, a peculiar sensitiveness upon moving or cold; also breathlessness, a slight hacking cough, with or without expectoration; flying pains throughout the body; These symptoms are more noticeable toward or in the night; slight fever in the afternoon; feet and hands, and in many cases a blue color of the lips and roots of the finger nails.

It is unnecessary to give the symptoms in full, as there is scarcely a family in our State wherein its ravages have not been felt to a greater or less degree, and while the old men are in the habit of staking their stock to the animals that cross over to Ford's land, and eat his grass. The old man has objected to this kind of thing a number of times, but the Maya paid no attention to him and the next time he found the cattle eating his grass he got hold of the rope that was attached to a fine horse and proceeded to walk away with the animal.

The Maya boys happened to be near by and when they saw what was going on they made a rush for the old man, and in a few minutes a three-handed pull was under full headway with the old man on one end of the rope and the horse and the two men on the other end.

The old man was his grand father for some time, and would probably have been clinging to the rope had not the Maya family closed in on him and proceeded, according to his statement, to do him injury.

Persons taking this treatment can use the results at home as well as at our office.

I have tried many doctors for heart disease but have derived no benefit until Dr. Woh, the Chinese physician, of Los Angeles City, prescribed for me. I began his treatment and can now certify that he has done me great good. I recommend Dr. Woh to my friends as an able doctor.

AT THE OPERAHOUSE—Georgia Minstrels.

A CITIZEN suggests to THE TIMES that Mr. J. T. Sheward, if he believes his own estimates of the profits to be derived by the city out of running the water companies, should be a warm advocate of the people buying the works of the City Water Company at its own figure—\$2,500,000. There would be "millions in it" for somebody.

THE question "is an umbrella property?" has been decided in the affirmative by a Rochester magistrate, who recently sentenced to prison a man who took the opposite views—and an umbrella. In some communities possession of the umbrella is considered the highest title to ownership, but it seems Rochester still clings to the old-fashioned idea that an umbrella may be stolen.

THE new early morning train service on the Santa Fe's "kite-shaped track," inaugurated at the instance of THE TIMES under contract between it and the railway company, and which started off with great eclat last Sunday morning, is attracting wide attention. "The Times Flyer" is an unqualified success. The train carries the United States mail, and does besides an early morning passenger business.

THE Patent Office report this year is of intense interest to all students of our country's development. It illustrates by tables and graphic charts the history of patent granting by years and States for the century of the office's existence; and a clear and comprehensive presentation of the effect of patented inventions on the development of all of the industries of the country. It also makes recommendations for important amendments to the patent law.

THE recent conviction at Oroville and prompt incarceration of J. O. Bell, a sewing machine salesman who embezzled the proceeds of several machines, will serve as a warning to other agents who travel about the country and are tempted by great opportunities to be dishonest. A general agent of this city who has charge of a large corps of canvassers says that embezzlement has been one of the greatest abuses which the companies have had to deal with, but by vigorous efforts in the way of detection and prosecution the evil is being abated. His experience leads him to believe that the underlying cause of this dishonesty is about equally divided between whisky and gambling. When a man becomes thoroughly addicted to either of these vices his sense of moral rectitude is lost.

THAT noted woman, Sarah Althea Hill-Sharon-Terry, is bound to be connected with a sensation, whatever happens. She first loomed into notoriety in her celebrated suit against Senator Sharon, in which she tried to prove that she was his lawfully-wedded wife. Her next sensation (after Sharon's death) was her marriage with Judge Terry, her attorney. She cut a considerable figure at the time Terry was killed and in the trial of Deputy Marshal Neagle which followed. After dropping into the limbo of forgotten people, she appeared again a few days ago as a violently insane person. Now she has wrapped the drapery of her skirts about her and has effected a mysterious disappearance. Like Big Bertha, this woman finds it necessary to resort to more and more extreme methods in order to command public attention. After the mysterious disappearance shall have run its course there remain the lecture platform, the stage and the dime museum.

THE Federation of Labor is spoiling to get the World's Fair management by the throat. The charge that certain labor organizations have been discriminated against in the work now in progress has probably little foundation. It is more probable that the management refuses to be dictated to by labor organizations. But when it comes to the real kernel of the question it may be asked, What right have any set of men pursuing a certain calling to band themselves together and say that nobody outside of their organization shall pursue that calling? This is supposed to be a free country, in which every man is privileged to life, liberty and the pursuit of happiness. If a carpenter, we will say, follows his trade and earns a livelihood thereby, why should he not be let alone? He may not care to join any lodge or society, divert a part of his earnings to its treasury and subject himself to its discipline. He may need all he can make to support his family, and he may not care to throw up his job at the dictation of a third party. Why should this man be coerced into joining such an organization under penalty of being ostracized and perhaps driven from work? The whole theory upon which most of these labor organizations operate is un-American and wrong. It infringes upon the personal liberties of the citizen. It is a sort of tyranny to which a high-minded and self-respecting people will not long submit. Men have fought and died and been considered martyrs to the cause of freedom while contending for privileges such as the trades organizations deny. If the Federation of Labor knows when it is well off it will not grapple with the Government just yet.

In 1888, which happened to be the year of tariff bushwhacking under President Cleveland, the United States bought from other nations \$33,441,971 more of general merchandise than it sold to all other nations. President Cleveland's policy, if adopted, would have vastly increased this balance of trade against the United States. But it was not adopted. The Republican party revised the tariff with two exclusive objects in view: First, to protect every American industry against undue foreign competition; second, to decrease the annual revenues collected at the custom-houses.

What has been the result? Lower average tariff duties than ever before, larger free non-competitive imports than ever before, larger exports than ever before. The exact figures for 1891 are: Imports, \$82,812,646; exports, \$970,506,282; balance due the United States from other nations as a result of the year's business, \$142,193,686! And yet the Democrats have begun to tinker with the tariff and announce their intention of destroying it by easy stages. What blind infatuation!

## AMUSEMENTS.

AT THE PLAYHOUSES.

GRAND OPERAHOUSE.—Richards & Prince's Georgia Minstrels gave their opening performance at the Grand Operahouse last night to a tremendously top-heavy house, there being standing-room only in the gallery and balcony. The lower floor was but fairly full. The performance was all good, the average being fine, but the type of performance seems to be unable to please the public. Billy Kersands is naturally funny and really has a talent beyond the big mouth he was born with. James Crooby has a fine base voice and dances well. The Mallory brothers are light and airy dancers, but their singing is but passable. Will Eldridge is quite a "funny little coon," as styled on the bills, and the concluding feature, the Venetian madrigals, is a big improvement on the old slab-banging afterpiece of our boyhood days. Tom Brown works very hard to be funny, but nature evidently did not cut him out for an end-man in a minstrel troupe, as his business fails very fast. To-night closes the engagement.

COMING ATTRACTIONS.—The greatest living comedian, Joseph Jefferson, and his fine company of players will begin a three-night engagement on that matchless comedy of the last century, *The Barber of Seville*. The great actor has not visited California before for fourteen years and has never before been in the Queen City of the South, but his fame is well in advance of him, and no doubt he will meet with a royal reception.

The advance sale of tickets is all too short to permit all who would wish to see the great Jefferson, perhaps on his last visit to the Pacific Coast.

On Friday evening next Dawson and Phipps will be given at the Los Angeles Theater, under the direction of E. S. Laurie, for the benefit of the Knights of Pythias Bureau of Relief. Mr. Laurie is an actor with an Eastern reputation, and has surrounded himself with the best local talents to be found in the city. No doubt the performance will be a pleasing one of this staunch old drama.

## CHARGED WITH RAPE.

Pat Lehart in Jail Charged With a Serial Crime.

Pat Lehart was arrested at his home out on Temple street last night by Deputy Sheriff Henry Russell and Constable Slanker, and locked up in the County Jail on a charge of rape.

Lehart was formerly on the police force in this city, but for some time past has been foreman for Contractor Frank P. McMillin on the San Antonio Canon, near Pomona.

Sunday afternoon Lehart enticed a young woman named Clara Young, who was employed at the camp as a waitress, up the canon on the pretense that he wished to show her where he had struck a mine. The girl, who has only been out from the East a short time, willingly accompanied him, suspecting nothing wrong. As soon as Lehart got her away from the camp she brusquely tried to ravish her. She screamed for help and finally succeeded in getting away from him, she says, before he accomplished his purpose.

The girl then made her way back to the camp, when she told Mrs. Phelan about the assault, and when Lehart returned there was trouble between himself and Phelan, who took the girl's part, and ordered Lehart out of the camp.

Lehart then went down to Pomona, where he got drunk and boasted of having ravished the girl.

Yesterday Miss Young awoke out a complaint against Lehart, but he could not be found about Pomona, and Constable Slanker at once came to Los Angeles in search of him.

He secured the assistance of Deputy Sheriff Russell, and went out to Lehart's house, where he was arrested, having apparently just walked in from Pomona. Lehart will be taken back to Pomona this morning.

Lehart is an old miner, and was at Leadville when the mines there were at their best. His real name is Dillon, and at one time he was worth over \$100,000. He had some family trouble in Leadville, lost his money and came to California.

## THE LADIES' ANNEX.

Still Discussing the Action of Mrs. Dr. Wilder—Extreme Measures Proposed.

The session of the Ladies' Annex yesterday was devoted to the discussion of the World's Fair commissionship. The indignation of the members over the treatment they have received is increasing and, although they are powerless to do anything toward securing the removal of Mrs. Dr. Wilder, the will find her position anything but secure.

A letter was read from Commissioner L. H. Hatch stating that he could do nothing in the matter of the lady commissionership unless Mrs. Dr. Wilder voluntarily resigned, as he had already given her the place.

A letter was also read from Mrs. E. J. Winslow, former secretary of the Annex, protesting vigorously against the same action. The ladies are now to agree a single standard and restricted circulation is sure of defeat sooner or later, for this policy conduces to the interests of the few against the interests of the many.

WOMEN have long complained of the penchant which many masculine writers have for discussing feminine dress and criticising its absurdities and inequities. But a race of feminine writers is now to the fore, who are more sweeping in their criticisms and more merciless in their condemnations than any man who ever wielded a pencil. The women are more thorough, because they know more about the subject. In a little volume entitled "Desertarian Physical Culture," by Carrica Le Favre, the fair writer goes after certain feminine fads with a stick sharpened at both ends. She says: "The corset, the bustle, the hoop, together with stiff hats and bonnets, should at once be consigned to their inevitable doom—oblivion. Oh, for a big bonfire!" And again in discussing face powders: "Starch is a hideous fiend, clothed in white to imperil the health and torture the sensibilities of highly evolved human beings." The high-heeled shoe is also condemned as an abomination, and the theory is advanced that there should be no artificial obstacles in the way of free and graceful movement of all parts of the body. Let the women fight it out between themselves.

In 1888, which happened to be the year of tariff bushwhacking under President Cleveland, the United States bought from other nations \$33,441,971 more of general merchandise than it sold to all other nations. President Cleveland's policy, if adopted, would have vastly increased this balance of trade against the United States. But it was not adopted. The Republican party revised the tariff with two exclusive objects in view: First, to protect every American industry against undue foreign competition; second, to decrease the annual revenues collected at the custom-houses.

The Executive Committee of the citizens' fair will meet this morning and probably remain in session all day, allotting space for the coming display.

There is quite a dearth of room, applications being already in for much more than the available space.

The committee consisting of E. F. C. Klodke, Eugene German, John P. Peck, and C. L. Willard were out yesterday raising the guarantee fund of \$30,000 for the fair. Contrary to precedent, the necessary amount was raised in about two hours, there being no subscription less than \$100, and nearly all the amounts being pledged by the commission and wholesale dealers on Los Angeles street.

## ASSAILING THE TARIFF.

## House Committees to Investigate Its Effects.

## Alliance Members Go with the Democrats on the Question.

## A Big Mississippi River Appropriation Reported in the Senate.

## Outline of the Forthcoming Minority Report Against the Bland Free Coinage Bill—Other Matters at the National Capital.

By Telegraph to The Times.

WASHINGTON, Feb. 15.—[By the Associated Press.] The Ways and Means Committee will report three tariff bills to the House during the present week. This much was determined upon at the meeting of the Democratic majority today and the measures to be reported are Springer's Free Wool Bill, Mr. Bryan's Free Binding Twine Bill and Mr. Turner's bill placing cotton ties, cotton bagging and machinery for making the same on the free list.

Mr. Springer is explaining his bill said that all wool and hair and all waste matter are put upon the free list. All waste matter advanced beyond the point of scoured wool, shoddy and mungo are taxed 25 per cent. The rates on woolen and worsted yarns are fixed for all values at 35 per cent, ad valorem. The rates on woollen and worsted cloths, shawls, knit fabrics, etc., are fixed at 40 per cent. The equivalent rate under the McKinley act is not stated under all items but on woolen and worsted cloths it is 90 to 140 per cent. Other rates are not stated. Blanks, hats of wool and flannels for underwear are reduced from 30 to 25, from 35 to 30 and from 40 to 35 per cent. Under the McKinley act the rates are from 78 to 110 per cent. On women's and children's dress goods, etc., having cotton warp, the rates are fixed at 85 per cent. Under the McKinley act they are over 88 per cent. The rates on woolen warp are fixed at 40 per cent. The equivalent rate under the McKinley act is 50 to 82 per cent.

It is understood that later on the Committee on Manufactures will be authorized to conduct an inquiry as to the effect of the tariff law on manufacturers and skilled wage-workers, and thus, in the end, two reports will be made on the various phases of the new law by as many different committees.

Mr. McMillin presided over the House today in the absence of Speaker Wright, who was confined to his room by headache.

## FIFTY-SECOND CONGRESS.

## FIRST SESSION.

WASHINGTON, Feb. 15.—[By the Associated Press.]—Senate.—The bill appropriating \$15,000,000 for the improvement of the Mississippi River from the passes to the mouth of the Illinois River was reported and placed on the calendar.

A concurrent resolution instructing the Senate Committee on Immigration and the House Committee on Immigration to investigate the recent admission into the port of New York of Russian immigrants infected with typhus fever was introduced by Mr. Chandler and passed.

Mr. Manderson, from the Committee on Military Affairs, reported back adversely four bills for the increase of the infantry and artillery branches of the army, and reported in lieu thereof a bill to reorganize the artillery and infantry branches of the army and to increase their efficiency. Placed on the calendar.

Mr. Abbott, from the Committee on Coinage, Weights and Measures, introduced a bill appropriating \$350,000 for a drydock on the Government reservation near Algiers, La., was passed.

The bill providing for the public printing and binding and distribution of public documents passed—41 to 6.

Mr. Paddock's bill preventing the adulteration and misbranding of food and drugs was passed, and went over and unchanged. Adjourned.

House.—Mr. Hatch brought the tariff question to the front by moving to suspend the rules and adopt a resolution requesting the Committee on Agriculture to report the effect upon agriculture of the present tariff law.

Mr. Bynum of Indiana demanded a second, and the request of Mr. Hatch that a second be considered was objected to by Mr. Kilgore of Texas.

Messrs. Kilgore and Hatch were appointed tellers, and reported the vote 122 to 2.

The Republicans did not vote, but no one raised the point of no quorum.

Mr. Kilgore was recognized to oppose the resolution but declined to avail himself of the right of appeal, stating that he was not opposed to it, although he believed it was originally offered as a ploy to postpone the bill.

Mr. Kilgore then moved to adjourn, and the bill was adjourned.

Mr. Kilgore then related the circumstances of meeting the man who knocked him down and robbed him and of their arrest by Officer Grant. When the shots were fired Curtis did not see them fire but thought they were meant for him and ran away. He did not recognize the man who shot him. He did not have a pistol on him. He was accused of shooting in the comedy hall, that Curtis had no motive for shooting Grant and that the man who fired Curtis at \$240 was the man who fired the fatal shot.

The defendant, M. B. Curtis, then took the stand. He testified that he was born at Detroit, Mich., and is an Episcopalian. He has been an actor for twenty-two years and was never before arrested. On the night of the shooting he had \$240 with him to pay a bill. He did not pay it because he missed his creditor. He left his wife at the theater and took a walk.

## THE COURTS.

The San Pedro Libel Suit Continued.

Davis's Testimony Corroborated by Several Witnesses.

Evidence as to Defendant's Mental Condition Ruled Out.

A Plea of Not Guilty Entered by Alex McKay, the Cathedral Burglar—Criminal Cases Set for Trial—Court Notes.

The trial of the San Pedro libel case was resumed before Judge Shaw and a jury in Department Five yesterday morning, the defendant, J. W. Davis, being upon the stand for cross-examination when the proceedings commenced. He was followed by A. W. Potts, an ex-county clerk, who was administrator of the Joksdorff estate at the time when Davis and Peck put in bids for a lot belonging to Mrs. Joksdorff. He corroborated Davis as to Peck's having told him that the latter was an irresponsible person, and attempted to induce him to accept his (Peck's) bid for the same piece of property.

D. R. Clay, who acted as Peck's agent in the matter of the sale of some of the Kerckhoff lots, also corroborated Davis as to some of the details of that matter.

Peck and Davis both took the stand again and testified as to their knowledge of these transactions, and A. W. Hutton, Esq., corroborated the testimony of the witness Potts.

Deputy Sheriff Anderson was sworn and examined to show that he had served subpoenas upon Mrs. C. H. Joksdorff and Mrs. Laubersheimer, but that both were unable to appear on account of sickness.

Dr. F. T. Bicknell was called for the purpose of showing that Davis' mental condition was such that he could not convince his medical attendant that if continued he would soon have been insane, but the Court ruled the doctor's testimony out, and at this juncture an adjournment was made until 10 o'clock this morning.

THE CATHEDRAL BURGLAR.

In Department One yesterday morning A. E. McKay, alias A. E. McDonald, appeared before Judge Smith to plead to the charge of having burglarized the Cathedral in December last, and the Court having appointed W. T. Kendrick, Esq., as his counsel for this purpose, the defendant entered his plea of not guilty thereto, whereupon the case was ordered placed on the trial calendar.

## SET FOR TRIAL.

In Department Five yesterday morning the following criminal cases were set for trial by Judge Shaw: People vs. G. W. and J. H. Crocker, forgery, April 19; Wong Gunn et al., murder, April 21; John C. Hoy, forgery, April 28; Lyman Ayres, obtaining property by false pretenses, April 30; J. C. Moreno, assault with deadly weapon, May 9 next.

## Court Notes.

In the United States Circuit Court yesterday morning Judge Ross heard argument in the case of Blanton Duncan vs. the Atchison, Topeka and Santa Fe Railroad Company, and ordered that the matter be submitted upon briefs, the parties thereto being allowed ten days each in which to file the same.

By consent of counsel the trial of the case against P. Walters, charged with an assault with a deadly weapon, was reset by Judge Smith yesterday for April 8 next.

Owing to the absence of the defendant's counsel the case against G. H. Baxter, charged with the murder of Joe Ramsey, was ordered continued on the trial calendar by Judge Smith yesterday until this morning, when it will be set for hearing.

In Department Two, yesterday afternoon, the trial of the case of H. P. Scott et al. vs. James Stewart, a controversy over some nursery stock, was commenced before Judge Clark, who continued the matter for further hearing until this morning.

In Department Three, yesterday, Judge Wade denied the motion of the defendant in the case of J. Mooney et al. vs. Mary A. Mooney, to dismiss the action on account of plaintiff's failure to file proper undertaking for the costs therein as required, but allowed the defendant ten days' time within which to file a bill of exceptions.

Judge Wade tried the case of N. Ohland et al. vs. F. P. Frosario et al., an action to foreclose a mortgage for \$10,000, yesterday, and the defendants having allowed the matter to go by default, judgment was rendered against them as prayed for.

The case of Candelaria F. de Alvarez vs. John L. Rawson et al., an action to quiet title to a lot of land between Upper Main and New High streets, came on for trial before Judge McKinley yesterday, and went over for further hearing until this morning.

Judge McKinley rendered his decision yesterday morning in the case of N. Seidlinger et al. vs. W. Bernhardt, judgment being ordered for defendant, and a similar order was made in the case of P. T. Johnson vs. G. R. Shatto et al.

The defendants in the case of the Tehachapi Lime and Timber Company vs. F. O. Wyman et al. moved Judge McKinley yesterday to dismiss the action on the ground that the court had no jurisdiction over the subject matter therein, which motion was submitted.

Judge McKinley ordered yesterday that a commission issue directing John L. Davis, a notary public residing at Williams, Ariz., to take the testimony of J. U. Henry, the defendant in the case of John P. Jones et al. vs. J. U. Henry.

In the Township Court yesterday Ah Hin, a Chinese, appeared before Justice Stanton for arraignment upon the charge of embezzlement, preferred against him by You Hing, who accused him of having appropriated to his own use \$320 which had been entrusted to him. He was placed under bonds in the sum of \$1200 to appear for examination on Friday next.

Judge Wade rendered his decision in the case of the German Savings and Loan Society vs. W. F. Heathman yesterday, judgment being ordered for plaintiff, in accordance with a brief opinion filed therein.

J. H. McRae, charged with having stolen \$6 from the Southern Pacific depot at Acton on Tuesday last, appeared before Justice Stanton yesterday and was ordered to appear to appear for examination on Friday next, bail being required meanwhile in the sum of \$1500.

New Suits.

Among the documents filed with the County Clerk yesterday were the preliminary papers in the following new suits:

William Cord vs. W. M. Woody, suit to oust defendant from office of trustee of the city of Pomona, for malfeasance, and for \$500.

Los Angeles National Bank vs. A. J. Stann et al., suit to recover \$750 alleged to be due on a promissory note.

William Freer vs. J. Well, suit to re-

cover judgment for \$410 alleged to be due on a note.

Petition of Martha Jane Nelson for letters of administration to the estate of William Nelson, deceased, who died on January 27 last, leaving real and personal property valued at \$2750.

Judge Van Dyke rendered his decision yesterday in the case of Will Daw vs. J. B. Niles et al., giving judgment for the plaintiff as prayed for. The suit was on a promissory note.

## THE SCHOOL BOARD.

A Monkey and Parrot Time at Last Night's Session.

The New President Appoints New Committees, and Insists on the "Reorganization"—Substitute Teachers Elected—Routine Business.

The Board of Education met last night with the new president, Dr. Kierluff, in the chair, and Secretary Baker present.

Communications from parties wishing to sell lots to the department for school purposes were referred to the Building Committee.

The resignation of Miss L. J. Kendall was read and accepted. The resignation of Ida F. Hutchings was also accepted.

Mr. Hitchcock was tendered a vote of thanks for the able manner in which he had conducted the business of the High school graduating exercises.

The following substitute teachers were elected: Mrs. B. M. Baker, Dr. D. W. Hanna, Miss M. A. Samuels and Miss Ida L. Blodgett.

On motion of the chairman of the Classification Committee several teachers were transferred.

The usual monthly bills were read and ordered paid.

It was decided to close the schools on the 25th of March for one week's vacation.

After some further discussion on general topics the chair became uneasy and wanted to know if there was any further business before the board, and he declared the meeting adjourned, but the other members were not ready and the chair kindly consented to let them have their own way.

Dr. Hitchcock asked that the president appoint the standing committees for the ensuing year, but Mr. Witmer raised the question that under the laws of the board all committees must be appointed in January and the committees cannot be appointed after that time.

The chair claimed that the meetings were adjourned from time to time until the board was reorganized on the 13th inst., and for that reason the business transacted at that meeting is legal.

After discussing during the best part of an hour the president took the bit in his mouth and declared that he would reorganize the board in spite of all opposition.

Mr. Witmer stated he would object to any such proceedings and the president excitedly informed the banker member of the board of the action of the chair.

Mr. Witmer had not attended the meetings in January, and should have been excused, he ought to keep quiet and not give as much trouble as he has in the past.

Mr. Hitchcock moved that the sense of the board be taken as to whether the old committees stand, as no change was made in January according to the rule, or whether the president shall appoint new committees.

The chair objected to such a move and wanted to know what they would do in case of a tie.

The question was evidently a stunner, for it was not answered.

The vote stood three for organization and three against. Mr. Witmer wanted to know whether the president would render a decision on the vote or take it under advisement, and the chair informed him that it was decided against him and that the board would reorganize.

The president then lit a cigar and a lengthy discussion followed as to whether a rule prohibiting smoking during meetings had not been adopted some time ago.

The chair then stated that he would announce the new committees.

Mr. Witmer jumped to his feet and objected to such proceedings and another heated discussion between the chair and Mr. Witmer ensued, and when the chair would not listen to Mr. Witmer that gentleman attempted to appeal from the chair's decision but the chair would not listen to such a thing and announced the following committee, after the rule had been suspended:

Finance Committee—Messrs. Witmer, Davis and Roberts.

Buildings—Barber, Marsh and Crowley.

DR. PRICE'S Cream Baking Powder.

DRINK DELBECK CHAMPAGNE H. J. Woolcott, Agent.

After some further discussion on general topics the chair became uneasy and wanted to know if there was any further business before the board, and he declared the meeting adjourned, but the other members were not ready and the chair kindly consented to let them have their own way.

Mr. Hitchcock asked that the president appoint the standing committees for the ensuing year, but Mr. Witmer raised the question that under the laws of the board all committees must be appointed in January and the committees cannot be appointed after that time.

The chair claimed that the meetings were adjourned from time to time until the board was reorganized on the 13th inst., and for that reason the business transacted at that meeting is legal.

OFFICE OF THE TIMES.

LOS ANGELES, Feb. 15, 1892.

A dispatch from New York says: "A bid of \$94c for 40s to 50s California prunes in boxes by an extremely conservative buyer is taken as an indication that no great plus of that size is here. The Commercial Bulletin, this morning, referred again to the favorable prospects of the California raisin trade. The latest information statistics, and adduce that since the publication of those statistics returns of shipments from California have been given out, and the figures suggest that California has already made great strides in the direction of supplying the outlet that was formerly the field for foreign raisins. As a result, it would seem practically demonstrated that California is producing enough raisins to supply an outlet equal to that which the foreign goods found in this country when the latter had the field almost exclusively, and it is suggested that weather conditions permitting, there will be enough raisin grapes grown in California this season to bring the supply of raisins fully up to the crop of last year and the importations from Europe combined."

The Mark Lane Express in its weekly review of foreign trade in New York says: "English wheat recorded 60, but trade has been slow. Foreign wheat was depressed. The continent is buying freely of California, Argentina and India at 6d advance. California sold at 58s 6d. American wheat 57s 9d. Flour was quiet. America being in fair demand at prices 4d per sack higher. Corn was weak, new American bringing 20s 9d. Barley and oats were firm."

The Bradstreet's Mercantile Agency report for Jan. 15, in the Pacific Coast States and Territories for the week ending Friday, as compared with 14 for the previous week and 12 for the corresponding week of 1891. The failures of the past week are divided among the trades as follows: Two tailors, one painter, one druggist, one hatter, drug, 1 dairy produce, 1 jeweler, 1 general store, 1 stove and 1 restaurant.

## Money, Stocks and Bonds.

NEW YORK, Feb. 15.—The stock market was still unusually active and presented a strong front almost throughout the entire session. Advances over the real date were reflected, owing to the way in which coal stocks held their advance. There was only one weak point in the market, distillers yielding steadily in the face of the advancing market, though it was kept company with a few by low Central stocks. The market was active, strong at about the top figures of the day.

The advances include Jersey Central 2%; Union Pacific, 2%; St. Paul, 2%; Atchison and Reading, each 2 1/2%; Canada Southern, 1 1/2%; C. C. & St. Louis, 1%; and other smaller amounts, while Dallas is down 2%.

## Government Bonds, dull, easier.

A Few More Words About "The Times Flyer."

Making Rates for Exhibits to the Citrus Fair.

The Work That Is Being Done on Terminal Island.

Probably an Important Union Pacific Item  
—A Joint Tariff for San Pedro Business—Local Notes.

It is conceded that the inauguration of the new fast newspaper train service on the Santa Fe, between Los Angeles and San Bernardino and Redlands, marks an important epoch in Southern California railroading. That the Times Flyer is appreciated, both for the extra facilities it affords to the public and for the enterprise displayed in the inception and carrying out of the idea, was yesterday quite evident from the comments in business and social circles of this city. The postoffice people, alert for extra service, at once arranged for carrying mail upon the Flyer, and twenty pouches were carried eastward upon it yesterday morning. Business men, especially those who have fruit interests in the region to which early access is given, were gratified for the first time, gladly accepting the good things spread before them, enjoying the feast as only children can.

It was a "pink dinner," the soft light being shed through bright pink globes. The table service was of the same lovely hue, and in the subdued radiance the apartment was like a bower in fairyland.

At the conclusion of the repast, when every child felt that there was nothing more to be desired than what was pleasant to the sight and good for food, the children were detained a few moments at the table while poems written for the occasion, one by Mrs. E. A. Otis, the other from the pen of Mrs. L. V. Newton, were read by Mrs. Foss, mother of Master Harold, and the well-known and accomplished Boston elocutionist.

The children then adjourned to the parlor, and the older guests sat down to a table no less inviting than that which had been provided for the children. A poem, addressed to the genial host and hostess, written by Mrs. Newton, was also read by Mrs. Foss in her own inimitable manner, and the sentiments which it expressed were most heartily indorsed by the assembled guests.

A general adjournment then followed to the parlor, where a variety of games were enjoyed by the children, and a pleasant evening through the connecting rooms was had to an accompaniment upon the piano, after which Mr. Osgood gave two songs, "The Little Dreamer," and "Down to Grandfather's Farm," amid bursts of delighted applause from the young folks, as well as those of larger growth.

At 8:30 the crowd of little folks turned their faces homeward, wishing that birthday parties came every night of the year.

GERMAN AT EAST SAN GABRIEL.

The german at the East San Gabriel Hotel Saturday evening was one of the most brilliant affairs of the season. It was led by D. Cutler, Jr. The hall was very elaborately decorated. The music was furnished by Arend's orchestra. The ladies presiding over the fair table were Mmes. Leeds, Freeman, Camp.

The reception committee was composed of Mmes. Purcell, Sanborn and Warner.

The lady patroneuses were Mmes. Rockwell, Neddin, Sanborn, Purcell, Leeds, Freeman, Camp.

These presents were Mr. and Mrs. E. A. Gilbert, D. A. Dicken, L. C. Shelden, H. R. Warner, S. M. Green, G. Purcell, H. H. Campbell, George Patterson, Charles Winston, Charles Lantz, S. E. Locke, W. S. Gilmore, Samuel Freeman, J. M. Sanborn; Mrs. H. E. Leeds, I. B. Winslow, H. H. Rockwell, M. B. St. George, C. T. Noddin; Misses Camp, Shoemaker, Cutler, Allen, Lewis, Craig, Hossinger, Green, Rockwell, King, Stoneman, Purcell, Peck, English, Pritchard, Patterson, Shorb, Newman, Greenleaf, Batelle, Gilmore; Messrs. Cutler, McLaughlin, Mayberry, Leeds, Martin, McCone, Crank, Lieut. Stockle, Pritchard, Dr. Frase, Cooper, Murray, Stevens, Halsted, Tufts, Baldwin, Allen, Devereux, Stoneman.

NOTES AND PERSONALS.

The private car Isolante, with the Andrew Carnegie party en route for Chicago, has left New York.

W. F. Bennett, of the Chicago and North Western, left on Monday for Chicago, is visiting in Los Angeles.

The great 600-horse-power dynamo for the Consolidated Electric Railway Company, of which reference has frequently been made, has arrived and is being set up in the power-house.

A meeting of the officials of the Santa Fe and Terminal companies was held yesterday afternoon to compile a joint tariff to be effective on both roads.

As has been explained, these companies have arranged for the interchange of traffic, as is usual for connecting railroads.

A wagon load of surveyor's stakes today will take to Terminal Island today to be used in plattting out the grounds of the Terminal Railroad Company there.

Besides the grounds required for the railroad company lots will be mapped out for cottages, and it is more than likely that this season will see quite a village spring up there.

Plans have been completed for the construction of a house to be erected at Terminal Island, opposite San Pedro, by the Los Angeles Terminal Railroad Company, and work will begin upon it next week. It will be a pretty structure, sufficiently large for the company's needs there and provided with all the modern improvements.

A JOYOUS JUVENILE PARTY.

One of the most delightful juvenile parties of the season was given last evening by Mr. and Mrs. A. J. Osgood at their pleasant residence, corner of Broadway and Tenth, to Master Harold Foss, their former little townsmen at Boston. About twenty-five were present, including twelve happy little people, who sat down to a handsomely-spread table, in the center of which was a large birthday cake with nine burning tapers, one for every year of the little man's life. The children entered heartily into the discussion of the good things spread before them, enjoying the feast as only children can.

It was a "pink dinner," the soft light being shed through bright pink globes. The table service was of the same lovely hue, and in the subdued radiance the apartment was like a bower in fairyland.
